

Kalmegh

Kalmegh is known as Indian Echinacea owing to its popular usage against fever, cold and flu. Its active compound Andrographolides are said to be responsible for its efficacy in fighting viral and bacterial infections as well as an immune-stimulant. Dolcas Botanosys manufactures a wide range of Andrographis extracts at its state-of-the-art manufacturing facilities in India.

Grades Available

- Total Andrographolides - 10% HPLC
- Total Andrographolides - 20% HPLC
- Total Andrographolides - 30% HPLC
